ABOUT US

Dfabrik Projects Mobiliario is a furniture and commercial equipment manufacturing company, the result of the union of carpentry professionals with more than 20 years of experience and MOMOB Group, a reference both nationally and internationally in the assembly of commercial facilities.

DFABRIK has its own design and technical development department, as well as all the necessary means for the execution of large-scale projects. Having your own factory allows you to guarantee maximum quality and greater competitiveness.

DFABRIK is currently immersed in a resizing process. Its strong dynamic character and its constant search for excellence make DFABRIK expand its facilities and reinvest in new machinery with the best results. All of them translate in continuous improvement and in more satisfied customers.

Some of our main clients:

Dfabrik works directly with the most important architecture and commercial equipment companies in the market, which makes our final production reach clients with great notoriety such as "El Corte Inglés", "Melia Hotels", "Burger King", "DUFY "Or" Aromas ", which positions us within the carpentry manufacturers in our country with high quality standards.

In addition to its specialization in major jobs such as Hotels, Residences, Airports and shopping centers, DFABRIK advises, designs, and executes projects to local clients of local businesses such as pharmacies, sports shops, cafeterias or restaurants, who are looking for a "custom-made" design that Add value to your business and report more sales.

DFABRIK uses first quality materials in all its projects. Main suppliers:
